PETITION TO ACKNOWLEDGE ORIGINAL 371 APPLICATION
FILING DATE AS OFFICIAL FILING DATE

Upon reviewing the enclosed documents, it is clear that all requirements were met with the original filing of the above-captioned patent application under 35 U.S.C. 371. Therefore, it is respectfully requested that the filing date of June 6, 2006 be assigned to the above-captioned application instead of the incorrect date, April 2, 2007, as recently assigned on the Notice of Acceptance of Application and Filing Receipt (copies enclosed).

The Declaration, Power of Attorney and Petition was originally filed with the application on June 6, 2006 and acknowledged as being received by the U.S. Patent Office. Proof of acknowledgement is shown on the enclosed postcard, stamped by the PCT Office of the U.S. Patent Office.

Although the Declaration and Power of Attorney fully identified the application by the International Application number and the International filing date, a "Notification of Missing Requirements Under 35 U.S.C. 371" was mailed out by the Patent Office on February 1, 2007, which stated that this information was not supplied on the Oath or Declaration at the time of filing. Applicant's agent responded with a copy of the originally filed Declaration & Power of Attorney, postcard, and a responsive explanation on March 30, 2007. A copy of the postcard indicating receipt of these documents on April 2, 2007 is enclosed for your convenience, as well as the previously filed documents.

It is respectfully requested that a new Notice of Acceptance and Filing Receipt be issued with a filing date of June 6, 2006, the original filing date of this patent application.

Further, the attorneys associated with Customer Number 46,188 should be listed on the filing receipt and on pair as indicated on the Declaration, Power of Attorney and Petition.

If, in the opinion of the Examiner, an interview would expedite the issues as set forth above, the Examiner is invited to call the undersigned attorney at the number indicated below.

The Commissioner is hereby authorized to charge any additional fees or credit any overpayment to Deposit Account No. 50-1698.

Respectfully submitted,

PROTECTING YOUR INVENTION OUTSIDE THE UNITED STATES

Since the rights granted by a U.S. patent extend only throughout the territory of the United States and have no effect in a foreign country, an inventor who wishes patent protection in another country must apply for a patent in a specific country or in regional patent offices. Applicants may wish to consider the filing of an international application under the Patent Cooperation Treaty (PCT). An international (PCT) application generally has the same effect as a regular national patent application in each PCT-member country. The PCT process **simplifies** the filing of patent applications on the same invention in member countries, but **does not result** in a grant of "an international patent" and does not eliminate the need of applicants to file additional documents and fees in countries where patent protection is desired.

Almost every country has its own patent law, and a person desiring a patent in a particular country must make an application for patent in that country in accordance with its particular laws. Since the laws of many countries differ in various respects from the patent law of the United States, applicants are advised to seek guidance from specific foreign countries to ensure that patent rights are not lost prematurely.

Applicants also are advised that in the case of inventions made in the United States, the Director of the USPTO must issue a license before applicants can apply for a patent in a foreign country. The filing of a U.S. patent application serves as a request for a foreign filing license. The application's filing receipt contains further information and guidance as to the status of applicant's license for foreign filing.

Applicants may wish to consult the USPTO booklet, "General Information Concerning Patents" (specifically, the section entitled "Treaties and Foreign Patents") for more information on timeframes and deadlines for filing foreign patent applications. The guide is available either by contacting the USPTO Contact Center at 800-786-9199, or it can be viewed on the USPTO website at <http://www.uspto.gov/web/offices/pac/doc/general/index.html>.

For information on preventing theft of your intellectual property (patents, trademarks and copyrights), you may wish to consult the U.S. Government website, <http://www.stopfakes.gov>. Part of a Department of Commerce initiative, this website includes self-help "toolkits" giving innovators guidance on how to protect intellectual property in specific countries such as China, Korea and Mexico. For questions regarding patent enforcement issues, applicants may call the U.S. Government hotline at 1-866-999-HALT (1-866-999-4158).

LICENSE FOR FOREIGN FILING UNDER Title 35, United States Code, Section 184 Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted

under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Bureau of Industry and Security, Department of Commerce (15 CFR parts 730-774); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).

RESPONSE TO NOTIFICATION OF MISSING REQUIREMENTS

Dear Sir:

This paper is responsive to the Notification of Missing Requirements dated February 1,
2007 in the above-identified application.

Remarks begin on page 2 of this paper.

REMARKS

The declaration as originally filed in the United States Patent Office on June 6, 2006 (attached hereto as Exhibit A) identifies the application by the International application number and international filing date in compliance with 37 CFR 1.497(a). Accordingly, it is hereby respectfully requested that the requirement for a oath or declaration of the inventors be withdrawn. A copy of the Notification of Missing Requirements is enclosed.

If, in the opinion of the Examiner, an interview would expedite the prosecution of this application, the Examiner is invited to call the undersigned attorney at the number indicated below.

The Commissioner is hereby authorized to charge any additional fees or credit any overpayment to Deposit Account No. 50-1698.
